Super guarantee (SG) charge percentage

Income	SG rate
1 July 2023 – 30 June 2024	11%
1 July 2024 – 30 June 2025	11.5%
From 1 July 2025	12%

Maximum SG contribution base

\$62,270 per quarter / \$249,080 per annum (2023-24)

\$65,070 per quarter / \$260,280 per annum (2024-25)

Maximum SG contribution base is indexed to AWOTE

SG charge (SGC) – quarterly due dates

Quarter ending	Employer contribution payment dates	SGC statement and payment due
30 September	28 October	28 November
31 December	28 January	28 February
31 March	28 April	28 May
30 June	28 July	28 August

Penalties apply to employers who fail to submit their SG contributions by the 28th of the month following the end of quarter. Required to complete an SG statement by the 28th of the second month after the end of quarter and pay the SGC liability.

This SGC consists of:

- The shortfall in the SG contributions for the quarter (including any choice liability);
- The interest at 10% p.a. on the shortfall up to the date the statement and payment is submitted; and
- \$20 administration charge per employee where shortfall exists;
- Contributions made after the due date may be used to offset the SG shortfall.

Note: Self-employed not required to make contributions.

SG not payable for part time employees under 18 years working less than 30 hours per week.

SG proposed to be aligned with payroll cycles from July 2026.

Small business retirement exemption limit (lifetime) ⁹	\$500,000	\$500,000	n/a ⁴

- Where applicable, all CC taxed at 15% whether under or over caps or thresholds in addition to any additional tax.
- Indexed to AWOTE in \$2,500 increments.
- Excess CC included in an individual's assessable income and taxed at marginal rate.
- Excess contributions count towards the NCC cap.
- Non-refundable offset equal to 15% of CC available.
- Rate does not include Medicare levy.
- NCC cap set at a multiple of four times the CC cap. Bring forward rule available up to age 74.
- Indexed to AWOTE in \$5,000 increments. Contributions which count towards the lifetime CGT-exempt contributions cap include the small business CGT retirement and 15-year CGT exemptions.
- Not indexed.
- Indexed to CPI in \$100,000 increments. NCC can only be made if TSB is less than the general transfer balance cap. Restrictions on bring forward rule apply if TSB close to cap.
- Unused CC carry forward amounts available if TSB less than CC carry forward limit. Unused amounts available for a maximum of 5 years.
- NCC unable to be accepted by super fund unless the member's TFN has been quoted to the fund.
- Tax offset of up to four years of no-TFN tax may be available where TFN is subsequently provided to fund.

- Increased threshold available where account established prior to 1 July 2007. Amounts less than threshold not subject to no-TFN tax.
- Calculated on lesser of excess income over threshold or total CC up to CC cap. Not payable on excess CC.
- Assessed on excess income for surcharge purposes minus reportable employer super contributions over threshold.

Small business CGT retirement exemption

Must satisfy basic conditions applying to all CGT small business concessions, amount chosen to be exempt must not exceed remaining CGT retirement exemption limit and:

- If under 55 exempt amount must be contributed into a complying superannuation fund or RSA; or
- If 55 or over don't have to pay any amount into a complying superannuation fund or RSA, even though may have been under 55 years when received the capital proceeds.

Small business 15 year CGT exemption

Must satisfy basic conditions applying to all CGT small business concessions and:

- a CGT event happened to an asset of yours;
- you continuously owned the asset for the 15-year period ending just before the CGT event;
- the asset was an active asset for at least 7½ years during the period you owned it; and
- at the time the CGT event happened you were either:
 - aged 55 years or more and the event happened in connection with your retirement; or
 - permanently incapacitated.

COVID-19 re-contribution

- Only available to taxpayers who received COVID-19 early release amounts from their superannuation fund in the 2019-20 and / or 2020-21 financial years
- Available to 30 June 2030
- Restricted to total COVID-19 early release amounts received, and not available for a tax deduction
- Excess COVID-19 re-contributions will count towards non-concessional contributions cap.

Downsizer contributions

- Limited to one contribution in a lifetime of up to \$300,000 per person (\$600,000 per couple) and not initially subject to total superannuation balance limit, but will count towards total superannuation balance in future financial years
- Contribution will not count towards non-concessional contribution cap (unless not a valid downsizer contribution and accepted by fund) and is not tax deductible
- Contribution will count towards transfer balance cap
- Only available to taxpayers from age 55
- Proceeds must be of sale of home owned by taxpayer or spouse for 10 years or more, must be fully or partially capital gains tax (CGT) – exempt (not merely pre-CGT), and contribution must be made within 90 days of receiving the proceeds of sale.

FBT years ending 31 March are used in this section unless otherwise indicated.

FBT years 2018-2024	
Fringe benefit provided	Gross up rate
Type 1 gross-up rate ¹	2.0802
Type 2 gross-up rate ²	1.8868
FBT rate ³	47%
Reportable fringe benefits	Value
Taxable value	>\$2,000
Minimum grossed up value ⁴	\$3,773

- Used if eligible for an input tax credit under the goods and services tax (GST) regime.
- Used if not eligible for an input tax credit under the GST regime.
- FBT rate is calculated on tax-inclusive value of fringe benefit provided in the year.
- Reportable fringe benefits are grossed up using the lower gross-up rate when reporting on employees' income statements or payment summaries.

Luxury car tax (LCT) thresholds

Category	2022-23	2023-24
Fuel efficient vehicles¹		
LCT threshold	\$84,916	\$89,332
Indexation factor	1.066	1.052
Other vehicles		
LCT threshold	\$71,849	\$76,950
Indexation factor	1.039	1.071

- Fuel efficient vehicles are classed as fuel consumption that does not exceed 7L per 100km as a combined rating under the applicable vehicle standards.

Statutory fractions for car benefit valuation

- Flat statutory rate of 20% applies to all car fringe benefits provided from 1 April 2014.
- The statutory percentages for car fringe benefits below apply to pre-existing commitments prior to 7.30 pm AEST on 10 May 2011, or where there is a pre-existing commitment in place to provide the car after this time.

Deemed depreciation rate - cars

Date car purchased	2022-23	2023-24
Up to and including 30 June 2002	22.50%	22.50%
From 1 July 2002 to 9 May 2006	18.75%	18.75%
On or after 10 May 2006	25.00%	25.00%

Diminishing value depreciation rates are utilised for car fringe benefits valued under the operating cost method. Depreciation is calculated based on the depreciated value of the car, determined by the car's cost if acquired during the year or its depreciated value if it was held at the beginning of the year. The cost of the car, for these purposes, refers to the complete cost of the vehicle and is not subject to the motor vehicle depreciation cost limit.
