SUPPORTED BY:

FINANCE OPERATIONS

PRODUCING CONSOLIDATED FINANCIAL STATEMENTS | 8 DECEMBER

This workshop will examine practical issues faced by companies when accounting for consolidation. It will also highlight practical applications and pitfalls in the consolidation methodology of single asset and liabilities consolidation as well as equity accounting.

COST ACCOUNTING | 25 AUGUST

Discover how Activity-Based Costing (ABC) can be harnessed in practice to improve business performance. Learn how to cost products and customers in order to assess product and customer profitability.

ANNUAL TAX UPDATE | 6 SEPTEMBER

Gain key insights into the changes in personal and corporate income tax arising from the Singapore Budget. Learn how to avoid the common pitfalls in preparing income tax returns and income tax computations.

ESSENTIAL BUDGETING | 13 SEPTEMBER

This workshop will focus on key areas of budgeting, including issues on common pain points of budgeting and forecasting, the context of long term planning and analysing variances.

STATEMENT OF CASH FLOWS: FINANCIAL REPORTING STANDARDS | 25 SEPTEMBER

The cash flow statement is one of the key sources that provides a look into the financial strength of a company. This workshop examines the cash flow standard and gives insights into preparing a consolidated cash flow statement involving the acquisition and disposal of subsidiaries.

ETHICS FOR BUSINESS | 17 OCTOBER

This workshop seeks to examine personal performance, and focus specifically on developing the awareness and decision making compass of the individual to ethics and business integrity.

FRS UPDATE FOR REPORTING | 24 NOVEMBER

Gain an overview of the FRS changes from the latest annual improvement project, covering the new standards applicable for 2015/2016. You will also learn about the latest standards issued by the IASB and their respective application in Singapore by the Accounting Standards Council (ASC).

ADVANCED FINANCE OPERATIONS

CORPORATE GOVERNANCE | 5 SEPTEMBER

Benefit from interactive exercises and cases to gain an in-depth understanding of the corporate governance framework from both theoretical and practical viewpoints.

TREASURY MANAGEMENT: CAPITAL AND FINANCIAL MANAGEMENT STRATEGIES | 11 SEPTEMBER

This workshop focuses on the key aspect of corporate capital and financial management. Case studies on recent and relevant market transactions will be used to discuss the key considerations and best practices adopted by large companies in this area.

STRATEGIC COST MANAGEMENT: LEAN TECHNIQUES FOR ACCOUNTANTS | 16 OCTOBER

Gain insights into the application of LEAN Management techniques to business environments with accountants as the key drivers. Learn to develop practical ways of developing plans for the implementation of LEAN tools and techniques across your organisation.

BUSINESS OPERATIONS

OPERATIONAL RISK MANAGEMENT: APPLYING BEST PRACTICES | 12 JULY

What is operational risk? Learn the tools and techniques through case studies to measure and manage operational risk. Find out the best practices and future considerations of operational risk management.

CYBERSECURITY: MULTI-DIMENSIONAL IMPACTS | 17 JULY

Cybersecurity has grabbed headlines with several high profile cases locally and globally. Learn about the different aspects of cybercrime and how you can apply good practices to safeguard against cybercrime.

DATA ANALYTICS | 23 OCTOBER

What is data analytics and business value can data bring? Learn what is required to leverage data and analytics in order to improve your business process and performance.

PERSONAL EFFECTIVENESS

COMMUNICATION SKILLS FOR FINANCE | 25 OCTOBER

Overcome common obstacles when communicating financial information to key stakeholders whether or not they have a financial background. Learn how to present data and numbers in a clear and compelling way.

BUILDING INTERPERSONAL SKILLS | 13 NOVEMBER

Good interpersonal skills are essential for effective communication and management particularly in the workplace. Learn how to build professional relationships, manage challenging situations and communicate your ideas more persuasively.
